Lighten your work – no matter what work you do.

The Cube packs years of Grote expertise into a flexible new package. Its power gives you the lighting performance you need for any mobile work place situation. Its size and rugged design allows vehicle placement wherever you want to mount it. And its Whitelight™ color temperature provides natural light color for less operator eye strain.

LED WhiteLight™ BETTER LIGHT BETTER PERFORMANCE
INNOVATION by Grote Industries, Inc.

A family's commitment to the vehicle and transportation lighting industry, spanning more than four generations

William D. Grote, Founder
Grote Industries 1901

Just like many of the distributors, fleets and OEM's Grote Industries serves, we're a family-owned business. Like a number of our customers, we're proud of our family's multi-generational commitment to the transportation industry, reaching back more than a century. If you know the Grote family, you also know that the vehicle lighting business is not just a job to us, it's something that's folded into our family's culture – part of our very DNA. We're fond of saying that "lighting is in our blood" and we're only half kidding.

Unlike many institutionally-owned companies, we're able to draw on our family's time-honored values, built upon our tradition of service to the industry and our fierce entrepreneurial spirit. We're thankful for the visionary legacy of our predecessors and because of it, we can't help but to see the past, present and future of the lighting industry in a different context from those who simply find themselves working in the lighting business.

Founded on the principles of solid customer relationships, continuous innovation and exceptional product performance, Grote is committed to propelling itself and its industry forward, with inventive products and challenging ideas.

As a corporation, our family's culture extends to our entire organization, around the globe and particularly to our customer-facing staff. Grote is not sales oriented, we're not engineering oriented – we're relationship oriented and we're working hard every day to uphold our reputation and continue to earn your trust.

The Grote family has played a prominent role in shaping the vehicle lighting industry. We are deeply and personally engaged today, as we will be in the future, to make the kind of brave choices and bold decisions that will help move the vehicle lighting industry ahead and into an even brighter tomorrow.

The Trilliant® Cube

GROTE'S ANYWHERE/EVERYWHERE LED WORK LAMP

Grote
The first name in vehicle safety systems®

The Cube: The LED Work Light that Works Anywhere

NOW, GROTE BRINGS YOU THE TRILLIANT® CUBE – THE NEW WORK LIGHT FOR ANY WORKPLACE APPLICATION.

Bolt it on, or design it in, Grote's Trilliant® Cube makes it easy for work vehicle designers or on-the-job work teams to put light where it's needed. The Cube puts LED performance into a new, rugged package that combines total mounting flexibility, small size, and powerful performance. Best of all, it's from Grote, the first name in mobile workplace lighting.

Strong die cast aluminum housing protects against shock and harsh workplace environments.

Available in TractorPlus™ and Wide Flood beam patterns.

Rugged stainless steel mounting hardware holds fast, providing mounting flexibility. Won't rust or corrode your equipment.

Wide Flood

(actual size)

TractorPlus™

Leak proof sealed lamp is certified IP69K; stands up to scratches, pressure washing, and harsh weather.

Available with Amp Superseal and Deutsch connector options.

Potted for complete circuit board protection against moisture, corrosion, vibration, and thermal temperature degradation.

MADE IN USA

Grote Quality and Performance in a Brand New Size

The Cube may be small, but it outperforms much larger lights. Both models are rated at 50,000 hours and project 1,300 lumens, but at half the power consumption of comparable conventional halogen lamps. And both Cube designs provide the light you need to get the job done.
