RESCUE JUMP PACKS FROM GROTE

- **Spark resistant on/off switch**

Batteries can emit hydrogen vapor. The spark resistant on/off switch provides an additional line of safety should hydrogen vapor be present within a booster pack.

- **Vapor vents**

Vapor vents are located under the handle and on the back panel to allow fresh air in and built up hydrogen gas to escape.

- **High strength housing**

Housings are injection molded for strength and durability.

- **Battery status gauge**

All models include an internal battery status "gauge" indicating power source strength/battery status.

- **Extra long 100% copper cables**

Units include extra long 100% copper cables for ease of connection to the vehicles battery.

- **Reverse connection alarm**

An alarm and light signal has been included to warn users when positive and negative cable connections have been reversed.

- **Live alert feature**

When the unit is turned on a "beep" will alert user that the model is live.

- **12 volt DC power source**

All models include a 12 volt DC power source for recharging the unit as well as two power cables.

RESCUE JUMP PACKS FROM GROTE

12 Volt Booster with Air Compressor

- * Air compressor and air gauge
- * Multiple air tips
- * Built in work light and flasher
- * Extra long 55", 6 gauge cables
- * Premium battery – 18 HR
- * DC power source
- * LED illuminated clamps

400 AMPS Crank; 900 AMPS PEAK – 12 VOLT

Part # 84-9643

12 Volt Booster with Compressor and 120 Volt Inverter

- * Includes the same elements as 84-9643 above and...
- * Built – in 300 Watt AC inverter with 2 ports
- * In-Line 30 amp fuse
- * Built – in USB connector port

400 AMPS Crank; 900 AMPS PEAK – 12 VOLT

Part # 84-9645

24 Volt Commercial – Dual Battery

- * Jumpstart 24 Volt vehicles
- * Built in work light and flasher
- * Extra long 62", 2 gauge cables
- * Shunted parrot clamps
- * Safeguard audible signal and light
- * Premium batteries – 20 HR
- * DC power source
- * Red handle – indicates 24 Volts

NEW!

400 AMPS Crank; 900 AMPS PEAK – 24 VOLT

Part # 84-9646

- * 100% copper welding cable for maximum conductivity and flexibility
- * Tangle proof construction * Stays flexible in sub zero temperatures
- * Attractive retail packaging
