

# UltraLink Power Cords

Product Information Sheet

TRAILER WIRING AND COMMUNICATION SYSTEMS

UltraLink™ Power Cords feature a crush resistant plug and deliver improved performance, longer wear, and superior conductivity at a competitive price

- Provides superior power delivery and exceeds power delivery minimum legal lamp requirements for single or double trailer configurations

### Solid Plug Design

- UltraLink™ zinc die-cast plugs are filled with elastomeric material that resists crushing and acts as potting to seal solid brass terminals from moisture
- Special adhesive bonds the cable to the plug, eliminating the need for a supporting spring and preventing moisture from entering the back of the plug
- Solid brass terminals are corrosion resistant, and provide superior current capacity with minimal voltage drop

### Cable

- Provides excellent recoil memory, chemical, and abrasion resistance (Coiled Versions)
- Advanced polymer jacketing material provides complete sealing and abrasion protection between -55°F and 190°F (Premium Versions)

### PRODUCT SPECIFICATIONS

**MATERIAL:** ADVANCED POLYMER (PREMIUM), EVA (ECONO)

**FINISH:** GREEN ABS ECONOMY OR BLACK NON ABS  
**SAE:** SAEJ560, J2394 (ABS cords), and J2222 (coiled cord versions)

PN	Length	Description	Jacket Color	Gauge	Interchange
