Durable OEM termination styles provide a long-lasting, trouble-free lamp.

- Efficient component design and a sealed circuit board leads to maintenance free operation
- Hermetic lens-to-housing seal prevents moisture intrusion
- Less current draw than standard incandescent lamps which leaves more voltage available to other vehicle systems
- Fits all Grote 4" bracket, grommet, and flange mounting options
- Resembles incandescent light to alleviate theft concerns
- Multi-volt version available for 9 – 32V power systems
