

UltraLink™ Power Cords: Demand the Best

GROTE POWER CORDS

Grote UltraLink™ Plugs

Solid brass nickel-plated pins

Crush resistant weather-tight elastomeric material

Wire jacket is molded into the plug sealing it from the elements and eliminating the need for a spring

vs. Conventional Metal or Nylon Plugs

Corrosion points

Split-pin terminals weaken and lose connection

Screw to hold plug to wire

Back is open to corrosion

Grote's UltraLink's crush-resistant design can survive being run over by a heavy duty vehicle while conventional hollow core designs are permanently deformed and rendered useless.

UltraLink™ Power Cords

RUGGED AND RELIABLE SIGNAL CONTROL AND POWER DELIVERY

A family's four generation commitment to the vehicle and transportation industry

William D. Grote, Founder
Grote Industries 1901

For over one hundred years, the Grote family has played a prominent role in shaping the vehicle lighting industry. Just like many of our distributors, dealers, and OEMs, we are proud of our family's multi-generational commitment to the transportation industry we serve. The vehicle lighting industry is not just a job to us; it's a calling – part of our DNA.

Unlike many institutionally-owned companies, our tradition of service is built on our family's time-honored values and our entrepreneurial spirit. We are thankful for the visionary legacy of our predecessors. It helps

us see the past, present and future of the lighting industry in a different context from those who simply find themselves working in the lighting business.

As a corporation, our family culture extends to our entire organization, all around the globe. Grote is not just sales oriented or engineering oriented – we are relationship oriented, and we work hard every day to uphold our industry leadership position and our good reputation with all who work with us.
