

New Products

81-0129

81-0129 - Cable Clamp Holders, Stainless Steel Cable Clamp and Clip

Electrical Connections / Air Products

- Cable clamp and clip designed to support and suspend power cords, rubber air lines, and 3-in-1 assemblies
- Includes a heavy-duty rubber insulated clamp and stainless steel snap clip
- Designed for a durable and easy installation

[Vist Product Page](#)

81-2338

81-2338 - EZ Claw Tensioner System, Versa Short Mount Kit with IAB & Sling - 25 lb.

Electrical Connections / Air Products

- Contains (1) 25 lb. tensioner, (1) sling for 3-in-1 lines, (1) Versa Mount Bracket Short, and (1) International Adapter Bracket
- Fits International day cabs w/ L channel & International day cabs w/ airfoil using C channel
- This kit provides 11" of clearance off the back of the cab. This keeps air hoses and electrical cords from rubbing against the back of the cab and also keeps them adequately supported off the catwalk
- Mounting hardware included
- Keeps air lines and electrical cords off the deckplate / catwalk
- Prevents chafing and costly downtime due to parts failure
- Allows for 90° turns keeping hoses safe & secure

[Vist Product Page](#)

87-9201

87-9201 - GXL Primary Wire, Length 100', Brown

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9211

87-9211 - GXL Primary Wire, Length 100', Yellow

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9206

87-9206 - GXL Primary Wire, Length 100', Green

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9212

87-9212 - GXL Primary Wire, Length 100', Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9207

87-9207 - GXL Primary Wire, Length 100', White

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9200

87-9200 - GXL Primary Wire, Length 100', Red

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9210

87-9210 - GXL Primary Wire, Length 100', Blue

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-9202

87-9202 - GXL Primary Wire, Length 100', Black

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8201

87-8201 - GXL Primary Wire, Length 100', Brown

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8211

87-8211 - GXL Primary Wire, Length 100', Yellow

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8206

87-8206 - GXL Primary Wire, Length 100', Green

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8212

87-8212 - GXL Primary Wire, Length 100', Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8207

87-8207 - GXL Primary Wire, Length 100', White

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8200

87-8200 - GXL Primary Wire, Length 100', Red

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8210

87-8210 - GXL Primary Wire, Length 100', Blue

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-8202

87-8202 - GXL Primary Wire, Length 100', Black

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7201

87-7201 - GXL Primary Wire, Length 100', Brown

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7211

87-7211 - GXL Primary Wire, Length 100', Yellow

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7206

87-7206 - GXL Primary Wire, Length 100', Green

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7212

87-7212 - GXL Primary Wire, Length 100', Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7207

87-7207 - GXL Primary Wire, Length 100', White

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7200

87-7200 - GXL Primary Wire, Length 100', Red

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7210

87-7210 - GXL Primary Wire, Length 100', Blue

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-7202

87-7202 - GXL Primary Wire, Length 100', Black

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6201

87-6201 - GXL Primary Wire, Length 100', Brown

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5211

87-5211 - GXL Primary Wire, Length 100', Yellow

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5201

87-5201 - GXL Primary Wire, Length 100', Brown

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6206

87-6206 - GXL Primary Wire, Length 100', Green

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6211

87-6211 - GXL Primary Wire, Length 100', Yellow

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6212

87-6212 - GXL Primary Wire, Length 100', Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6210

87-6210 - GXL Primary Wire, Length 100', Blue

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6207

87-6207 - GXL Primary Wire, Length 100', White

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6200

87-6200 - GXL Primary Wire, Length 100', Red

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-6202

87-6202 - GXL Primary Wire, Length 100', Black

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5207

87-5207 - GXL Primary Wire, Length 100', White

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5212

87-5212 - GXL Primary Wire, Length 100', Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5206

87-5206 - GXL Primary Wire, Length 100', Green

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5202

87-5202 - GXL Primary Wire, Length 100', Black

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5210

87-5210 - GXL Primary Wire, Length 100', Blue

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

[Vist Product Page](#)

87-5200

87-5200 - GXL Primary Wire, Length 100', Red

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 125°C (257°F)
- Designed for automotive applications
- Crosslinked, polyethylene (XLPE) Insulation
- Moisture, Oil, and Gasoline resistant
- Manufactured to SAE J1128 Specification

82-2229

82-2229 - Universal Door Switches, Door Jam Switch - Plunger Style

Electrical Connections / Switches & Electrical Assemblies

- On when plunger is out
- Dual mounting holes 1/38" x 2 1/16"
- Replaces Chrysler 882943, KF-204229
- 2 Positions: On-Off
- Normally On (Push to Off)
- (3) 8" 18 Ga. GPT wire leads
- Mounting: 1/2" -20 thread, stem 7/32" (5.6 mm) long
- Plunger: 3/16" (4.8 mm long)
- Self-tapping threads. Includes mating connector
- Self-adjusting

[Vist Product Page](#)

54812-3

54812-3 - Heated All-Weather Stop Tail Turn Lights, 6" Heated All-Weather Oval With Backup Hardshell - Bulk Pack

Signal Lighting / Stop Tail Turn Lights

- Decrease downtime and accelerate "walk-arounds" by reducing the need for drivers to scrape snow and ice from lights
- Keep lights free from snow and ice while driving in wintry conditions allowing you to stay visible, safe, and legally compliant with unobstructed lights
- Advanced thermal regulation technology monitors lens temperature to prevent overheating and reduce power consumption
- When the temperature of the lamp falls below 40 degrees, Grote's Heated 4-in-1 All-Weather STT Lights automatically begin transferring heat through the lens, actively preventing ice and snow buildup
- Bulk packs available to support retro-fit programs (16 pcs per carton)

[Vist Product Page](#)

54812

54812 - Heated All-Weather Stop Tail Turn Lights, 6" Heated All-Weather Oval With Backup Hardshell

Signal Lighting / Stop Tail Turn Lights

- Decrease downtime and accelerate "walk-arounds" by reducing the need for drivers to scrape snow and ice from lights
- Keep lights free from snow and ice while driving in wintry conditions allowing you to stay visible, safe, and legally compliant with unobstructed lights
- Advanced thermal regulation technology monitors lens temperature to prevent overheating and reduce power consumption
- When the temperature of the lamp falls below 40 degrees, Grote's Heated 4-in-1 All-Weather STT Lights automatically begin transferring heat through the lens, actively preventing ice and snow buildup

82-5759

82-5759 - Booster Cables - Twin Conductor, Black & Yellow, 8 Gauge

Electrical Connections / Battery Connectors & Cables

- Make up your own Booster Cables
- Can be used with SB type connectors for plug in convenience
- Ideal for tarps system (dump truck/dump trailer)
- Combine with heavy duty clamps for superior charging power
- Stays flexible in cold weather; bonded cable resists tangling
- Temperature rated to -40°F (-40°C); Rated @ 60V or less
- 100% fine-stranded copper meets SAE J1127 specifications

[Vist Product Page](#)

81-2339

81-2339 - EZ Claw Tensioner System, Center Post Mount Kit - 3-in-1 & Hydraulic w/ (3) Slings

Electrical Connections / Air Products

- Contains (1) Centre Post Mount (1) 25LB Universal Tensioner (1) 40LB Universal Tensioner (3) EZ Claw Slings
- Frame-mounted solution for suspending pneumatic, electric and hydraulic hoses in a central location behind the cab
- Reduces hose and line failure due to excessive, unsupported movements and/or rubbing
- The 72" post keeps lines a minimum 6" off the catwalk
- Supports up to 160 lbs. of hoses and cables
- Mounting hardware included
- Keeps air lines and electrical cords off the deckplate / catwalk
- Prevents chafing and costly downtime due to parts failure
- Allows for 90° turns keeping hoses safe & secure

[Vist Product Page](#)

81-2340

81-2340 - EZ Claw Tensioner System, Yard Truck Kit with hose and cable holder

Electrical Connections / Air Products

- Contains (1) 25LB Universal Tensioner - right orientation and (1) hose and cable holder 3/8-3/8
- (1) 25 lb. tensioner and (1) hose & cable block for 3-in-1 lines
- Designed to support air hoses and electrical cords on yard hostlers
- Mounting hardware and installation instructions are included
- Keeps the hoses 6" above the catwalk and clear of the rear pass-through door
- Keeps air lines and electrical cords off the deckplate / catwalk
- Prevents chafing and costly downtime due to parts failure
- Allows for 90° turns keeping hoses safe & secure

[Vist Product Page](#)

82-5904-200

82-5904-200 - Portable Extension Cables - Type SJEOWW, Length 200'

Electrical Connections / Wire & Cable

- Black TPE Jacket provides premium oil resistance, sunlight, chemical, and water resistance
- Rated at 300 Volts, Meets UL and CSA specifications
- Cable is suitable for use in temperatures between -40°F and +221°F (-40°C to +105°C)
- Ideal for indoor and outdoor temporary power use, such as for portable industrial machinery, compressors, conveyors, and automated production equipment
- All extension cord is spooled

[Vist Product Page](#)

82-5520-1000

82-5520-1000 - PVC Jacketed Brake Cable, Length 1000'

Electrical Connections / Wire & Cable

- Resists grease, oil, gasoline and acids
- Used for automotive, truck and marine applications
- Maximum temperature rating -40°C (-40°F) to 85°C (185°F)
- Internal wires meet SAE J1128 specifications
- Temperature ratings: 60°C (140°F)

[Vist Product Page](#)

83-8003-3200

83-8003-3200 - Split Flex Convoluted Tubing, Polyethylene Split Loom, Length 3200', Size 1/4"

Electrical Connections / Support & Protective

- Provides excellent chemical protection
- Allows flexible routing of wire, cable, hoses
- Protects hoses, wire, and cables from extreme heat and abrasion
- Helps reduce noise and protects wires from stones and other harmful debris
- Slit opening allows for easy installation of wires
- The slit snaps closed after installation to maintain its protective properties
- Applications: Automotive, Truck, Bus, Trailer, Marine, R.V., OE harness manufacturing

[Vist Product Page](#)

73480

73480 - Multi-Frequency and White Noise Alarms, White Noise Backup Alarm, Multi Frequency, 97dB

Warning & Hazard / Audible Devices

- The “White Noise” function reduces noise pollution (ideal for use in residential areas) but still provides excellent and locatable sound in the danger zones behind vehicles
- Improves worker safety with its acoustically friendly and locatable sound, reducing confusion and improving audibility
- Helps to eliminate noise complaints at job sites, delivering compliance to municipal and regional noise regulations
- The rugged black housing is made from durable, glass-filled nylon, and is epoxy-sealed to protect against dust, moisture, and vibration
- The 73480 mounts in a standard 4" grommet, providing a fast and easy installation that provides added protection against damage from debris

[Vist Product Page](#)

82-5709-P500

82-5709-P500 - Battery Cables - Type SGR, Length 500'

Electrical Connections / Battery Connectors & Cables

- Rated @ 60V
- 100% Copper Cable
- All Battery Cable is spooled
- Meets all SAE code J1127 specifications

[Vist Product Page](#)

82-6709-P500

82-6709-P500 - Battery Cables - Type SGR, Length 500'

Electrical Connections / Battery Connectors & Cables

- Rated @ 60V
- 100% Copper Cable
- All Battery Cable is spooled
- Meets all SAE code J1127 specifications

[Vist Product Page](#)

82-5625

82-5625 - Trailer Cable, PVC, Length 250'

Electrical Connections / Wire & Cable

- Used for wiring trucks and trailers; Jacket provides protection from weather and abrasive materials

[Vist Product Page](#)

83-8038-3

83-8038-3 - Split Flex Convoluted Tubing, Nylon Split Loom, 250' Length, Size 1 1/4"

Electrical Connections / Support & Protective

- Provides excellent chemical protection
- Allows flexible routing of wire, cable, hoses
- Protects hoses, wire, and cables from extreme heat and abrasion
- Helps reduce noise and protects wires from stones and other harmful debris
- Slit opening allows for easy installation of wires
- The slit snaps closed after installation to maintain its protective properties
- Applications: Automotive, Truck, Bus, Trailer, Marine, R.V., OE harness manufacturing

[Vist Product Page](#)

83-8001-3-R

83-8001-3-R - Split Flex Convoluted Tubing, Polyethylene Split Loom, Length 500', Size 1/2"

Electrical Connections / Support & Protective

- Provides excellent chemical protection
- Allows flexible routing of wire, cable, hoses
- Protects hoses, wire, and cables from extreme heat and abrasion
- Helps reduce noise and protects wires from stones and other harmful debris
- Slit opening allows for easy installation of wires
- The slit snaps closed after installation to maintain its protective properties
- Applications: Automotive, Truck, Bus, Trailer, Marine, R.V., OE harness manufacturing

87-8514

87-8514 - (GPT) General Purpose Thermoplastic Wire, Length 500' Pink

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

[Vist Product Page](#)

87-8503

87-8503 - (GPT) General Purpose Thermoplastic Wire, Length 500' Gray

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

[Vist Product Page](#)

87-8512

87-8512 - (GPT) General Purpose Thermoplastic Wire, Length 500' Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications
