BRACKET OR GROMMET MOUNT

## GROTE COMPACT AUXILIARY STROBE & STOP LAMPS

SURFACE MOUNT

## IT'S SIMPLE. RESEARCH SHOWS THAT IMPROVED VISIBILITY PREVENTS ACCIDENTS

Outfitting your fleet with Grote's new Auxiliary Strobe & Stop Lamp may reduce the risk of rear-end collisions by more than one half.

Based on recent studies conducted by two independent carriers over a 2-year period and 700,000,000 miles, results indicate that Grote's Auxiliary Strobe & Stop lamp can reduce rear-end collisions by more than 50%. In addition, in these studies, the severity of the collisions was reduced by over 75%.

### Meets Standards:

SAE J595 Class II for amber warning

SAE J186a Sep 1977 for

Supplemental High Mounted Stop & Rear Turn Signal

SAE J1889 Jul 2019 for LED Signal and Marking Light

**50%**  
PLUS
