WARRANTY: 3 YEARS

MINIATURE SIZE. SERIOUS PERFORMANCE.

Stay visible and stay safe with this ultra-compact rechargeable LED warning beacon. Three distinctive flash patterns—rotation, SOS, and steady-on—deliver versatile signaling for a wide range of applications. A powerful magnetic base mounts instantly to any metal surface, while the rugged aluminum alloy housing and IP65 rating ensure reliable performance in harsh conditions.

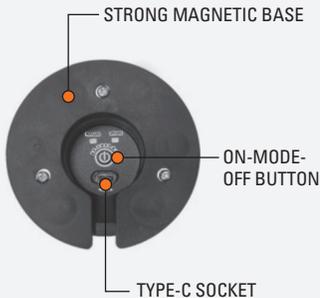

79353-5

ROTATING FLASH PATTERN IS SAE CLASS I / SAE CLASS II RATED

FEATURES & BENEFITS

- Three flash patterns: Rotation (SAE Class I or SAE Class II), SOS Flash, and Steady-On
- Recharges in approximately 2 hours via USB Type-C
- IP65-rated housing for reliable operation in rain and dust
- Powerful magnetic base securely mounts to metal surfaces
- Wide operating temperature range for dependable performance in extreme climates
