### SPECIFICATIONS

MATERIALS: BRASS, HIGH-IMPACT NYLON  
 MOUNTING HOLES: 2 x 0.5"  
 APPROVALS: SAE J560

Push-on bullet terminals allow for rapid repairs by quickly replacing OEM sockets, and solid brass pin terminals ensure optimal conductivity.

Grote's Heavy Duty 7-Way Connectors are designed to meet and exceed SAE J560 specifications. Quality features include a stainless steel closure spring, industry standard mounting holes, and solid brass push-on bullet terminals for optimal conductivity.

### COMPETITIVE INTERCHANGE

GROTE	82-1045 (SPLIT PIN)	82-1046 (SOLID PIN)
PHILLIPS	16-724	16-7242
TECTRAN	670P-75	670P-75A
TRAMEC SLOAN	38298	38296

### FEATURES & BENEFITS

- Made of lightweight, high-impact nylon that is resistant to oil, grease, fuels, and salt
- Meets and exceeds SAE J560 specifications
- Push-on bullet terminals allow for rapid repairs by quickly replacing OEM sockets
- Solid brass pin terminals for optimal conductivity
- Sloped and extended socket barrel provides moisture drainage and excellent power cord support
- Elongated 1/2" mounting holes for easy installation
- Circuit identification on the back of the socket
