All of the major benefits of LED technology with the distinctive pattern of a rotator product!

PRODUCT DETAILS

The brushless magnetic drive system spins the reflector disk thus reducing noise and eliminating the typical motor/gear problems inherent in mechanical rotators. The 8 – 3 watt LED's and the TIR optic provide SAE Class I light output. LED technology benefits also include low power draw and reduced on-going maintenance costs and reduced down-time.

PRODUCT FEATURES AND BENEFITS

- High intensity LED's in a rotating warning device with no gears, brushes or bulbs to wear out
- 8 – 3 watt LED's with TIR optics produce an exceptionally bright warning device
- Polycarbonate lens with UV hard coating – reduces cracking/hazing/fading
- SAE J845 Class I (Amber and Clear/Blue)
- Temperature range: -22°F to +122° F (-30°C to +50°C)

Part #	Colour	Voltage	Amps	FPM	Mounting
76683	Amber	12-24	1.7	120	3-bolt Flange/1" Pipe
76685	Blue	12-24	1.7	120	3-bolt Flange/1" Pipe
76693	Amber VM	12-24	1.7	120	Vacuum Mount
76695	Blue VM	12-24	1.7	120	Vacuum Mount
