New optic design provides cost effective solution with popular aftermarket termination style.

- Efficient component design and a sealed circuit board leads to maintenance free operation
- Faster light-on response time provides increased stopping alert distance versus incandescent lamps
- Less current draw than standard incandescent lamps which leaves more voltage available to other vehicle systems
- Fits all Grote 4" bracket, grommet, and flange mounting options
- Resembles incandescent light to alleviate theft concerns
- Uses existing pigtailed wiring for cost effective retrofit
- Hermetic lens to housing seal prevents moisture intrusion
- Multi-volt version available for 9 – 32V power systems
