

## Grote - a brand of trust with a heritage of nearly 120 years

We aren't just a company; we are a brand of trust. But more than anything, we are a collection of individuals who give Grote Industries a decisive competitive advantage. Our shared vision is clear – to meet the needs of the customers we serve. We accomplish that mission every day by following a set of core values that makes us who we are:

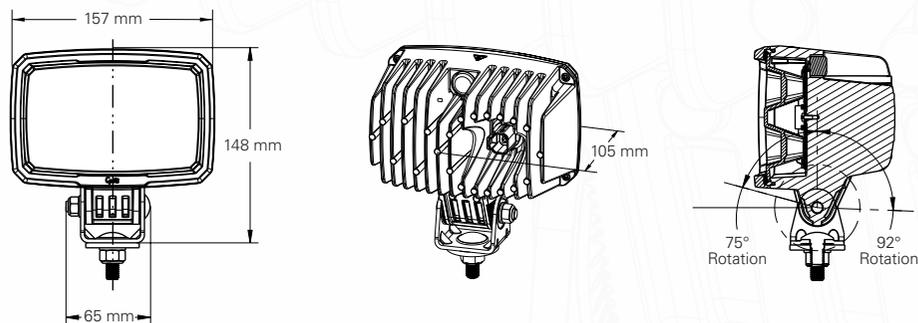

**Trust.** The name Grote stands for quality you can trust. Whether the focus is staying in compliance, maximizing profit, or simply staying safe; we know that our customers rely on the products we make.

**Integrity.** At Grote we take our promises seriously. Our products and our customer service are the proof. We strive to deliver the best possible experience in every interaction because we know that we are investing in a relationship, not just a transaction.

**Responsibility.** We pride ourselves on taking care of our customers, our team members, and the global communities in which we operate. Through healthy choices that embrace safety, inclusion and corporate responsibility, we seek to make a meaningful impact for the better on our world.

**Respect.** Just like our customers, Grote is a collection of individuals working to produce something remarkable. By empowering innovative thinking, encouraging change and continuously promoting quality, we ensure that we deliver the right products and services for our customers and for the company.

## The New Trilliant® LMX-Series

LED Work Lights

Trilliant® LMX.5 | Trilliant® LMX.6 | Trilliant® LMX.7

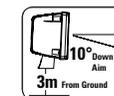

Ideal lighting conditions - even in the darkest environments

MADE IN GERMANY

## Trilliant® LMX - always a good choice!

- Best illumination for every working area: the high-output work lamps are available with three different lumen outputs ranging from 5000 lm to 7000 lm
- The lamps achieve a color temperature of 5.700 K similar to daylight
- Three distinct light distributions (close/long hybrid, close and long range) enable flexibility for all types of use
- Superior thermal design for a long and maintenance-free product lifetime
- The rugged aluminium housing protects against corrosion, damage and overheating
- Compact dimensions (HxWxD: 98x157x105 mm) compared to similar products
- Highly adjustable and versatile usage due to a voltage range from 9-32 V
- Suitable for nearly every work environment because of tested vibration and shock resistance
- Fulfills ISO 14982 and EN 13309 for operation in agricultural- and construction-site machinery
- Withstands all weather conditions due to the highest protection against dust and water (IP69K)
- Easy handling and quick assembly with a DT-Connector
- High quality German-made product
