A range of connection options adds new application flexibility

- All LEDs are encapsulated in potting to provide total circuit board protection
- All lamps have hermetic lens-to-housing sealing to protect against corrosion
- All lamps are designed to operate solely in horizontal position
- Optic lens versions meet PC function when mounted on side or back of trailer
- Reflex versions meet PC function when mounted at 45° angle
- Male pin connector versions have tin plated, solid brass terminals sealed to the housing
- Hardwired versions incorporate design features of Grote's MicroNova® DOT
- Both versions resist corrosion and eliminate leak paths
