

# The Grote Interior Switching Solution

**LET THE DRIVER COMPLETELY OPERATE THE SWITCHING SOLUTION FROM INSIDE THE TRAILER.**

Eliminate poorly lit working conditions and inefficient trips to reset the light at the front of the trailer by providing workers the ability to reset the lighting from inside the trailer.

**LED WhiteLight** BRIGHTER LIGHT BETTER PERFORMANCE  
INNOVATION by Grote Industries, Inc.

## Product Features and Benefits:

- Allows for multiple simple ground sensing switches while maintaining the integrity of the interior lighting system
- Eliminates the need to tap into the air brake delivery system
- Automatic shut-down of circuit for no-fuss on/off worries
- Recessed switch prevents damage from loads by easily integrating anywhere into the current interior lighting system with a simple two-wire hook-up
- The instant-on nature of LED's means no warm up time and no problems with operating in the extreme temperatures of a reefer trailer.

Part Number	Light Source/Material	Voltage/Amp
44380 (44380-3 Bulk)	ABS	.2-30V/Minimal
44360 (44360-3 BULK)	ABS	9-16V/15 A Max
61261 LED Dome Lamp	10-LEDs	12V/1.75 A
61881 LED Dome Lamp	10-LEDs	12V/1.2 A
61611 High Output LED Dome Lamp	18 -LEDs	12V/2.16 A
61811 7" Round LED Dome Lamp	16 -LEDs	12V/1.9 A
